

Sorry we missed you.

There's still time.

My daughter Ava and I came through Aruba this week meeting with restaurants to discuss our first international clients. We're sorry we didn't catch you on this trip — but we'd love 15 minutes the next time we're back on island, or a quick video call before then if it's easier.

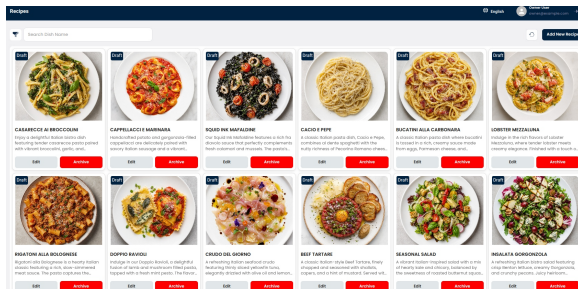

Have a great service,

Buddy & Ava Foy

Co-Founders, PlatePrep AI

What is PlatePrep?

AI · INVENTORY · FOOD COST · ORDERING

Live screen: every dish standardized, costed, and allergen-tagged — in 26 languages.

Built for chef-driven independents.

Two inputs — recipes and invoices. Everything else automated.

THE MATH

For a \$1.5M operator

\$26,000

net per year

after PlatePrep fees

30% less food waste

10 hours back per week

Pricing from \$299/mo
